

How to Become A
SAWS Approved
Backflow Prevention Assembly Tester (BPAT)
and/or
An Approved Customer Service Inspector (CSI)

Submit all requested information to:

Backflow Prevention Section
SAWS, 2800 US 281 North
Customer Service Center, Tower II
San Antonio, Texas 78212
Office 210 233-3332
Fax 210 2334749
lori.chavers@saws.org

1. Submit a copy of your TCEQ issued BPAT and/or CSI License
(Testers / Inspectors are responsible to maintain license renewals and supply SAWS with updated copies)

2. Certificate of Completion from the required BPAT 40 hour training course

3. Tester's / Inspector's Company name, address and contact numbers

4. Type of Tests you will be doing for SAWS (e.g. Fire lines, Irrigation, etc.)

5. Gauge Report Information Required for BPAT;
Company Name of Gauge Owner (To whom does the gauge belong)
Gauge Manufacturer
Gauge Serial Number
Test Report to verify the last accuracy test date of the gauge
(Gauges are to be tested for accuracy at least annually by a certified gauge Manufacture Representative or an ABPA Certified Proctor)

***Any Tests / Inspections performed for SAWS by any persons not approved or having expired licenses will be deemed as unacceptable and the Tests / Inspections will be rejected.**
