

San Antonio Water System Standard Specifications for Construction

ITEM NO. 904
CONSTRUCTION PAHSE PROCEDURES

DESCRIPTION: This item shall govern the implementation of the Construction Phase Procedures for construction projects. The Construction Phase Procedures is a guidance document written to help direct and control activities during the construction phase of projects. The Construction Phase Procedures manual is not intended to be a step-by-step procedure, instead it is a document which outlines general activities, procedures, and requirements by SAWS to be implemented by SAWS and the contractor throughout the construction phase of a project.

MEASUREMENT: Measurement of the Item, "Construction Phase Procedures," as specified herein, will not be measured for payment.

PAYMENTS: No direct payment shall be made for incidental cost associated with preparation and implementation of the Construction Phase Procedures.

IMPLEMENTATION: The implementation of this specification for SAWS construction projects will begin on all contracts executed after August 1, 1999.
