

SUMMER COLLEGE INTERNSHIP PROGRAM

Office of Energy Management Department

0018

Looking for a rewarding opportunity to get “hands on” experience with the largest water provider in San Antonio? The San Antonio Water System (SAWS) provides a unique environment where you will experience just that!

The SAWS Internship Program offers a unique educational/work experience that will provide a base of knowledge that you can build on throughout your life.

We are looking for an intern who will work in our Office of Energy Management Department.

Possible projects include:

- Provides necessary specialized assistance for OEM in its day to day operations.
- May include preparations for making all utility payments, assisting in tariff contract negotiations, Power Purchase Agreements, tariff verification, fuel and energy budgeting and forecasting. Much of the necessary day to day support work involves data research, verification, acquisition and model building.

Qualifications:

Students interested in the SAWS College Internship Program should possess the following qualifications:

- **Currently** a Junior or Senior level student pursuing an Associate’s, Bachelor’s or Master’s degree from a two or four year university in any of the following fields: Engineering, Science or Finance
- Advanced mathematical, statistical and computer abilities.
- Proficient in Microsoft Office Suite
- Must be able to pass a drug test and physical prior to employment with SAWS

Apply Online

Interested Candidates should apply on-line at www.saws.org.
