Additional spill resulting from recent storm

Impact from massive rain continues

SAN ANTONIO – Crews from San Antonio Water System are responding to an additional sewer overflow on the 12000 block of Farview Lane in the Salado Creek area near Wurzbach Parkway. SAWS crews will initiate cleanup of the area once floodwaters recede.

Heavy rains and infiltration into the sanitary sewer resulted in a spill that exceeded the requirement for public notice. See TCEQ notice for more details. No adverse impacts are expected since the spill has been heavily diluted by stormwater.

Areas prone to sewer overflows are the focus of projects replacing and upgrading capacity of sewer lines. Overall, SAWS has more than \$170 million in capital improvements budgeted in 2018 to replace and upgrade sewer lines throughout San Antonio.

For an interactive map and details on sewer project construction, visit www.saws.org/sewer.

San Antonio Water System provides water and sewer services to more than 1.8 million customers, via more than 12,000 miles of pipe. A consent decree with the EPA requires San Antonio to reduce sewer spills. Please help us improve the sewer system performance by disposing of wipes in the trash, and by immediately reporting sewer spills or missing manhole covers at 210-704-SAWS (7297).

TCEQ Notice attached.

NOTICE OF SPILL FROM A WASTEWATER FACILITY

A spill from a wastewater treatment or collection facility has occurred.

INFORMATION ABOUT THE SPILL

Facility Name: Salado Creek Water Recycling Center – 10137-008

Contact for further information: Anne Hayden – 210-233-3622

Location of the spill: 8-inch Sewer Main (12251 Farview) at Salado Creek Greenway North near Wurzbach Parkway

Estimated time and date of spill: September 4, 2018 at approximately 5 pm

Estimated volume of the spill (number of gallons): Spill estimated > 50,000 gallons

Type of spill: (domestic) (industrial) (other) Explain other: Domestic wastewater

Area potentially affected: Salado Creek

Suspected cause of spill: Infiltration from rain event

THE FOLLOWING ACTIONS HAVE BEEN TAKEN:

- Appropriate local governmental officials have been notified.
- TCEQ regional office has been notified.
- The spill has been contained.
- Increased monitoring of water supply systems has been initiated.
- The cause of the spill has been corrected.
- Clean-up activities are underway/completed.
- Other: _____

PERSONS MAY WISH TO TAKE THE FOLLOWING PERSONAL PRECAUTIONS

- Use only water that has been distilled or boiled at a rolling boil for at least one minute for all personal uses including drinking, cooking, bathing and tooth brushing
- Don't swim in affected area streams, ponds or lakes.

- Always wash hands thoroughly before preparing or eating food.
- Always wash hands thoroughly after any contact with animals, soil or diapers.
- Private well owners may wish to treat their well water, have their well water tested and inspect their wells for proper siting, construction and maintenance.
