

## Maintenance Checklist For Landscape Irrigation Systems

The customer has been given a manual for the automatic controller(s).

Customer's initials: \_\_\_\_\_

The customer has been given a seasonal (winter, spring, summer, fall) watering schedule based on current/real time ET or monthly historical ET data, monthly effective rainfall estimates, plant landscape coefficient factors, and site factors.

Customer's initials: \_\_\_\_\_

The customer has been given a copy of the as-built irrigation plan.

Customer's initials: \_\_\_\_\_

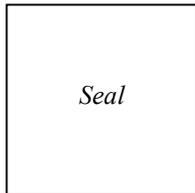

The following is a list of components that may require maintenance and the recommended service frequency for each:

Component	Maintenance	Frequency

Customer's Signature: \_\_\_\_\_ Date: \_\_\_\_\_

"This system has been installed in accordance with all applicable state and local laws, ordinances, rules, regulations and orders. I have tested the system and determined that it has been installed according to the Irrigation Plan and is properly adjusted for the most efficient application of water at this time."

Irrigation in Texas is regulated by the Texas Commission on Environmental Quality (TCEQ). MC-178. P.O. Box 13087. Austin TX 78711-3087. TCEQ's website is [www.tceq.state.tx.us](http://www.tceq.state.tx.us)
