

Water Conservation Math

Water is one of our most important resources. All living things need it to survive. That's why it is so important for us to use it wisely!

Activity:

How much water do you use before bed and how can you save more water?

Average Bath 	Average Shower 	Brush Teeth Water Off 	Brush Teeth Water On 
40 gallons	2 gallons <i>per minute</i>	1 gallon	4 gallons

Susan's bedtime routine is to take a bath and then brush her teeth with the water running.

_____ gallons

_____ gallons

_____ Total gallons Susan uses before bed.

Jackie's bedtime routine is to take a 5 minute shower and then brush her teeth with the water off.

_____ gallons

_____ gallons

_____ Total gallons Jackie uses before bed.

Water Conservation Math

Who uses more water with their bedtime routine? _____

How much **more** water does she use per **day**? _____ gallons

How much **more** water does she use per **week**? _____ gallons

How much **more** water does she use per **month**? _____ gallons

What are some things that you can do at home to save water every single day?
