Moving Water

Have you ever wondered how water gets to your house? Water companies like San Antonio Water System deliver water through tubes called pipes.

Activity 1:

Watch the SciKids video below to learn more about getting water from its source to you.

[Video: How Does Water Get to Your House?](#)

Activity 2:

Play the [WaterWorks game!](#)

Print the game board, playing cards and instructions. There are two versions, one color and the other black and white for you to color yourself! Construct the game board and play the game according to the instructions provided.
