

Boil Water Notice Rescinded
February 21, 2021

On February 17, 2021, the Texas Commission on Environmental Quality (TCEQ) required the San Antonio Water System's Castle Hills PWS # 0150045 to issue a Boil Water Notice to inform customers, individuals, or employees that due to conditions which occurred recently in the public water system, the water from this public water system was required to be boiled prior to use for drinking water or human consumption purposes.

SAWS has taken the necessary corrective actions to restore the quality of the water distributed used for drinking water or human consumption purposes and has provided TCEQ with laboratory test results that indicate that the water no longer requires boiling prior to use as of February 21, 2021.

If you have questions concerning this matter or your water quality, please contact Monty McGuffin (210) 233- 3546 or Kirk Nixon (210) 233-3523
